Education

University of São Paulo (USP)

MBA in Data Science and Analytics

São Paulo, Brazil

Mar. 2024 - Nov. 2025

Federal University of Pernambuco (UFPE)

Bachelor in Computer Science

Recife, Brazil

Jan. 2018 - Nov. 2023

- Thesis: Inventory Optimization - An Approach to Reducing Sales Losses in Retail through Ideal Stock Calculation

Federal University of Pernambuco (UFPE)

Bachelor in Civil Engineering

Recife, Brazil

Jan. 2013 - Nov. 2017

- Thesis: Analysis of the features ratio at kilometer 67 of BR 101/PE and its correlation with causes of accidents

Technical Skills

Programming

Python, SQL, Java, HTML, CSS, JavaScript, TypeScript, Cucumber-Selenium

Professional Software

Power BI, Tableau, Excel, Angular

Drawing & Typesetting

Photoshop, Figma, Microsoft Office, LaTeX

Other Skills

ETL, Hypothesis Testing, Time Series Analysis, Business View, Experimental Design, Scrum

Languages

Portuguese (Native), English (Fluent - Cambridge FCE Certification), Spanish

Work Experience

NOVUS - Dashboard

Founder and Owner

Recife, Brazil

Jan. 2024 - Present

- Developed strategic planning systems achieving up to 50% improvement in management focus and efficiency.
- Structured business data to create management dashboards, boosting decision-making accuracy by up to 70%.

Onebeat

Implementation Expert

Tel Aviv, Israel (Remote)

Aug. 2023 - Present

- Led the implementation of the Onebeat system, overseeing data collection, dataset processing, and dashboard creation.
- Innovated with SQL and Python solutions tailored to address implementation and execution challenges, resulting in a 70% improvement in algorithm accuracy and up to an 80% improvement in client KPIs..
- Managed 10 projects in Brazil, including Pague Menos, Aramis, Di Santinni, FOM, S2 Holding, Usaflex, Melissa, JCanedo, Evino, and Carajás, achieving an average client satisfaction score of 9.5/10.

Onebeat

Data & BI Analyst

Tel Aviv, Israel (Remote)

Aug. 2021 - Aug. 2023

- Monitored performance across 2,000+ stores from 16 companies, leveraging Power BI/Tableau dashboards and Python routines to anticipate operational issues, reducing downtime by 25%.
- Applied Python-based machine learning techniques to forecast demand, achieving a 74.19% reduction in stock shortages and a 37.21% decrease in inventory levels, resulting in significant cost savings.
- Collaborated internationally across more than 20 countries to craft executive summaries, articulating value propositions and strategies for client and senior leadership presentations, leading to a 15% increase in project approvals.

PET - Informatics

Scholarship Holder

Recife, Brazil

Jun. 2018 - Aug. 2021

- Coordinated the Pernambuco Computer Olympiad for over 3,000 students, managing logistics, test development, and system programming.
- Organized a Hackathon to promote programming skills, increasing participants' confidence in programming by 70%.
- Delivered computer science lectures to 500+ high school students, guiding their career decisions.
- Led Python workshops for 200+ teenagers and computer courses for 60+ seniors, improving digital literacy by 50%.

Portfolio

Marilan

Generated SAC Dashboard from SAP ERP data collection and processing, reducing response time by 40%.

M. Dias Branco

Built SAC and Production Dashboards powered by SAP ERP data, improving production tracking accuracy by 25%.

NEXEL

Created Operational, Tactical, and Strategic Dashboards leveraging of ERP data, resulting in a 35% reduction in operational costs.

RS Logistics

Designed a comprehensive data structuring framework and over 10 real-time dashboards, enhancing operational efficiency by 50% and enabling faster reporting.

Clients at Onebeat

Provided tailored dashboard solutions for clients including ARAMIS, Calvin Klein, TNG, Di Santinni, Pague Menos, Evino, Koerich, Pneubras, and 35 others, improving overall KPIs up to 70%.
